2011-2012 School Year Report Card

Current Principal: William R. Steffen (440) 572-7100
Current Superintendent: John J. Krupinski (440) 572-7000

Your School's Designation: **Excellent**

Number of State Indicators Met out of 12: **12**

Performance Index (0-120 points): **109.1**

Adequate Yearly Progress (AYP): **Met**

Value-Added Measure: --

The School Report Card for the 2011-2012 school year shows the progress schools have made based on four measures of performance.

Indicators | Performance Index | Adequate Yearly Progress | Value-Added

The combination of the four measures is the basis for assigning state designations to districts, buildings and community schools.

The six designations are
- Excellent with Distinction
- Excellent
- Effective
- Continuous Improvement
- Academic Watch
- Academic Emergency

State Indicators

To meet a test indicator for grades 3-8 and 10, at least 75% of students tested must score proficient or higher on that test. Other indicator requirements are: 11th grade Ohio Graduation Tests, 85%; Attendance Rate, 93%; Graduation Rate, 90%.

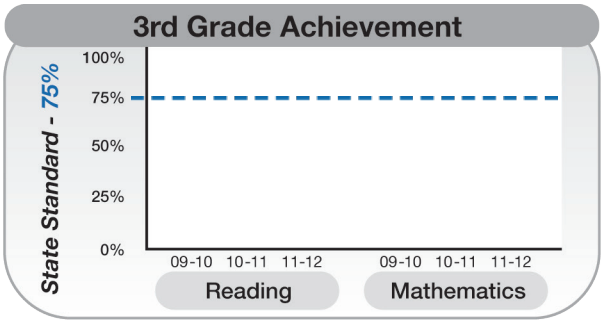
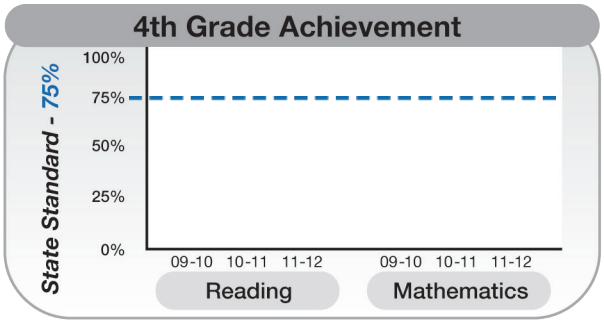
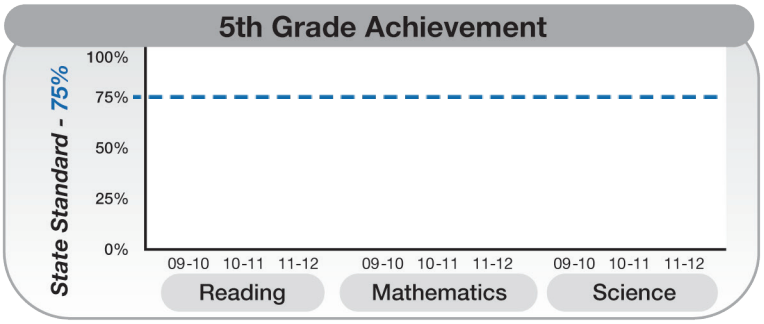
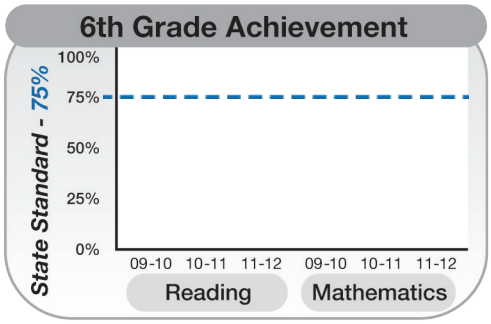
Your School's Assessment Results Over Time

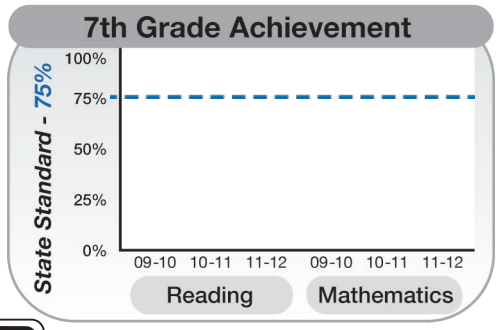
All students in the school for a full academic year are included in the results.

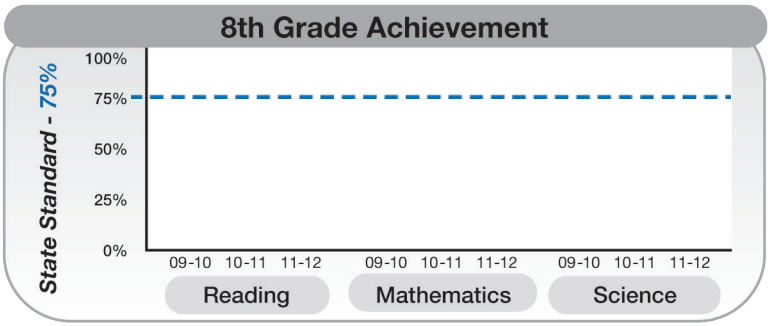






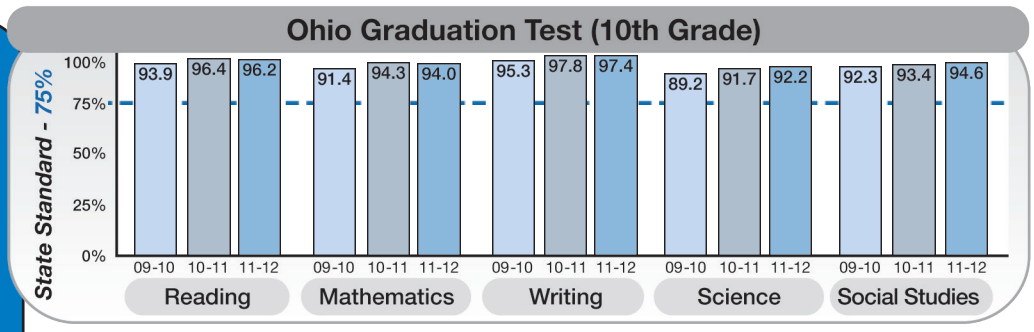


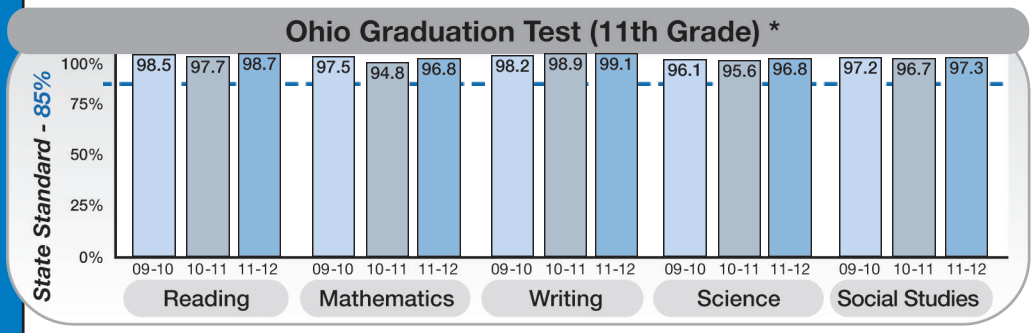




State Indicators

The State Indicators are based on state assessments, as well as on attendance and graduation rates. To earn an indicator for Achievement or Graduation Tests, at least 75% of students must reach proficient or above for the given assessment. For the 11th grade Ohio Graduation Tests indicators, a cumulative 85% passage rate for each assessment is required.





** Cumulative results for students who took the tests as 10th or 11th graders.*

Performance Index

Performance Index Calculations for the 2011-2012 School Year

Performance Level Across Grades 3-8 and 10 for All Tested Subjects (Includes every student enrolled in the school for a full academic year)	Percentage	X	Weight	=	Points
Untested	0.1	X	0.0	=	0.0
Limited	1.0	X	0.3	=	0.3
Basic	4.1	X	0.6	=	2.5
Proficient	20.1	X	1.0	=	20.1
Accelerated	34.1	X	1.1	=	37.5
Advanced	40.6	X	1.2	=	48.7
Your School's Performance Index					**109.1**

The Performance Index reflects the achievement of every student enrolled for the full academic year. The Performance Index is a weighted average that includes all tested subjects and grades and untested students. The greatest weight is given to advanced scores (1.2); the weights decrease for each performance level and a weight of zero is given to untested students. This results in a scale from 0 to 120 points. The Performance Index can be compared across years to show school achievement trends.

Value-Added Measure

Overall Composite

Scores reflect grade level and overall composite ratings for the 2011-2012 school year.

	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8
Reading					
Mathematics					

Note: Value-Added results are computed only for buildings that include students in grades 4 through 8.

Your school's Value-Added rating represents the progress your school has made with its students since last school year.
In contrast, achievement scores represent students' performance at a point in time. A score of "Above" indicates greater than one year of progress has been achieved; "Met" indicates one year of progress has been achieved; "Below" indicates less than one year of progress has been achieved. Value-Added results are computed only for buildings that include sufficient testing data for students in any grade 4 through 8.

Legend

This legend explains terms used in the above chart that describe whether each student group met this year's AYP goals.

For test indicators, AYP can be met in one of four ways:
1) meeting the AYP targets with current year results;
2) meeting the AYP targets with two-year combined results;
3) meeting the improvement requirements of Safe Harbor;
4) meeting the AYP targets with projected results.

For the non-test attendance rate indicator, AYP can be met in one of three ways:
1) meeting the AYP target with the current year results;
2) meeting the AYP target with two-year combined results;
3) making improvement over the previous year.

* Attendance Rate is evaluated only for the All Students subgroup.

For the non-test graduation rate indicator, AYP can be met in one of two ways:
1) meeting the AYP target with the current year results;
2) making a 2 percentage point improvement over the previous year.

N/A	Not applicable.
NR	Not Required – This indicator was not evaluated for this subgroup because the subgroup size was smaller than the minimum number needed to achieve a statistically reliable result. 30 students is the minimum size for the proficiency and non-test indicators, while 40 is the minimum size for the participation rate indicators.
Met	This subgroup met AYP for this indicator with its current year, two-year combined, Safe Harbor, or growth measure results.
Not Met	This subgroup did not meet AYP for this indicator.

Determining Your School's Designation

Determining your school's report card designation is a multi-step process. The first step is to determine a preliminary designation, which is based on the following components: 1) the percentage of indicators met, 2) the Performance Index and 3) AYP determination.

Indicators Met		Performance Index		AYP Designation		Preliminary Designation
94%-100%	or	100 to 120	and	Met or Not Met	=	**Excellent or Effective**
75%-93.9%	or	90 to 99.9	and	Met or Not Met	=	**Effective or Continuous Improvement**
0%-74.9%	or	0 to 89.9	and	Met	=	**Continuous Improvement**
50%-74.9%	or	80 to 89.9	and	Not Met	=	
31%-49.9%	or	70 to 79.9	and	Not Met	=	**Academic Watch**
0%-30.9%	and	0 to 69.9	and	Not Met	=	**Academic Emergency**

The preliminary designation results from identifying the higher value between the percentage of indicators met by your school and your school's Performance Index. AYP then is evaluated to determine its effect on the preliminary designation. There are two ways in which AYP can affect the preliminary designation.

1. If a school meets AYP in the current year, it can be rated no lower than Continuous Improvement.
2. If an Excellent or Effective school does not meet AYP for the same two (or more) subgroups for three consecutive years, its rating will be decreased to Effective or Continuous Improvement (respectively).

Once the preliminary designation is determined, Value-Added, the fourth measure in the accountability system, is evaluated to determine the impact (if any) on the school's final designation.

1. If your school's designation either is increased or decreased due to AYP, Value-Added has no impact on the designation and the preliminary designation becomes the final designation.
2. If your school experiences above expected growth in the current year, your school's final designation will increase by one designation.
3. If your school experiences below expected growth for at least two consecutive years, your school's final designation will decrease by one designation.

Preliminary Designation		Value-Added Measure*	Final Designation
Excellent	and	Above expected growth in the current year	**Excellent with Distinction**
		or	
		Below expected growth for 2 consecutive years	**Effective**
Effective	and	Above expected growth in the current year	**Excellent**
		or	
		Below expected growth for 2 consecutive years	**Continuous Improvement**
Continuous Improvement	and	Above expected growth in the current year	**Effective**
		or	
		Below expected growth for 2 consecutive years	**Academic Watch**
Academic Watch	and	Above expected growth in the current year	**Continuous Improvement**
		or	
		Below expected growth for 2 consecutive years	**Academic Emergency**
Academic Emergency	and	Above expected growth in the current year	**Academic Watch**
		or	
		Below expected growth for 2 consecutive years	**Academic Emergency**

*In all other cases, Value-Added will have no impact on the designation and the preliminary designation will become the final designation.

The National Assessment of Educational Progress (NAEP),

often referred to as "The Nation's Report Card," is the only nationally representative and continuing assessment that enables the comparison of performance in Ohio and other states in various subject areas. Schools and students within each state are selected randomly to be a part of the assessment. Not all students in the state or in a particular school take the assessment. Data are reported at the state level only, and there are no individual student or even school summary results. The assessments are conducted in mathematics, reading, science, writing, the arts, civics, economics, geography and U.S. history.

To view Ohio's most recent
NAEP results, go to:
