Achievement

This grade combines two results for students who took the state tests. The first result answers the question – How many students passed the state test? The second result answers the question – How well did students do on the state test?

**Performance Index**

The Performance Index measures the test results of every student, not just those who score proficient or higher. There are six levels on the index and districts receive points for every student in each of these levels. The higher the achievement level the more the points awarded in the district's index. This rewards schools and districts for improving performance.

Indicators Met measures how many students have passed the state tests at a minimum level, called proficient, or higher. Test results are reported for each student in a grade and subject. At least 75 percent of students must pass to get credit for the indicator. Starting in the 2013-14 school year, a district or school needs to have 80 percent of their students pass at a minimum level or higher in order to “meet” an indicator.

The Gifted Students data and Indicator highlight the opportunities for and performance of gifted students. The dashboard answers several questions: How many students are identified as gifted and in what categories? How many of those students are receiving gifted services? How well are those gifted students performing? The Gifted Indicator measures whether opportunity and performance expectations are being met for gifted students.

### Gifted Overview

- **Students Identified as Gifted**: 13.0% of enrollment
- **Students Receiving Gifted Services**: 0.0% of enrollment

### Achievement

This chart illustrates the test achievement levels by students identified as gifted in that test's subject. For example, how well do students identified as gifted in Reading do on the Reading achievement tests?

### Value Added

Value Added measures the progress for all students identified as gifted in reading, math, and/or superior cognitive ability.

**Annual Measurable Objectives**

Annual Measurable Objectives (AMOs) compare the performance of all students to a state goal which is displayed as the red line in the following charts. These charts show how well each group achieves that goal in reading, math and graduation - and emphasize any achievement gaps that exist between groups. The ultimate goal is for all groups to achieve at high levels.

- **2013 AMO for Reading** is 83.4%.
- **2013 AMO for Math** is 78.5%.
- **2013 AMO for Graduation Rate** is 75.9%.

**Graduation Rate**

This school has no Annual Measurable Objectives for Graduation Rate because there were not enough students to evaluate.

**AMO Points**

- **A** = 90.0 - 100.0%
- **B** = 80.0 - 89.9%
- **C** = 70.0 - 79.9%
- **D** = 60.0 - 69.9%
- **F** = 0.0 - 59.9%

The red line on each graph identifies the Annual Measurable Objective. The 2013 AMO for Reading is 83.4%, for Math is 78.5%, and for Graduation Rate is 75.9%. Subgroups with fewer than 30 students are not rated and do not appear on the graphs.
Graduation Rate

This grade represents the percentage of students whom entered the 9th grade and graduated 4 and 5 years later.

This school has not been assigned a grade for Graduation Rate because there were not enough students to evaluate.
