Ohio report cards use multiple measures to determine each school's designation. The table below shows the 18 state indicators, which are based on the statewide assessments, graduation rates and attendance rates. Page 2 includes the federal Adequate Yearly Progress determination and the Performance Index Score calculation. These measures contribute to the school designation.

1 Results for 10th grade students who took the test as 8th, 9th and 10th graders.  
2 A school enters School Improvement Status after missing AYP for two consecutive years.  
3 Similar districts are based on comparing demographic, socioeconomic and geographic factors.
ADEQUATE YEARLY PROGRESS (AYP) FOR SCHOOL YEAR 2003–2004

The table below shows the percentage of students proficient or above in your school in all tested grades based on federal AYP requirements. To meet the federal AYP requirements, all student groups must be at or above the annual goals or make improvement over last year. Graduation and attendance goals must be met for the “all students” group.

- Your school Met AYP in Reading Participation and Met AYP in Reading Achievement
- Your school Met AYP in Mathematics Participation and Met AYP in Mathematics Achievement
- Your school Met AYP in Attendance and -- in Graduation

### AYP Goals Met in Your School for the 2003-2004 School Year

</tr>
</tbody>
</table>

The goal shown is for the “all students” group. Each student group has customized goals based on the number of students from each tested grade, which may vary slightly from the goal shown.

NR = Not Required for AYP due to student group size below minimum number for statistical reliability. The minimum student group size is 30, except for “students with disabilities,” which has a minimum group size of 45.

-- = No data reported

### PERFORMANCE INDEX SCORE

The Performance Index Score reflects the achievement of every tested student. The score is a weighted average of all tested subjects in grades 3, 4 and 6. The most weight is given to the advanced students (1.2), and the weights decrease for each performance level. This creates a scale of 0 to 120 points, with 100 being the goal. Looking at the Performance Index Score over time shows trends in school achievement.

#### Performance Index Score Calculations for the 2003-2004 School Year

Presenting statewide assessment results over time is another way to see progress and improvement in your school. There were three new assessments used this year that are not listed here because there are no historical data to show: the Grade Three Reading Achievement Test and the Ohio Graduation Tests in reading and mathematics. All students in the school for a full academic year are included in the results.
